

THE ELIASON® SCP-3 / SCG-3 DOORS

An International Sensation

SCP-3 / SCG-3 STAINLESS STEEL TRAFFIC DOORS

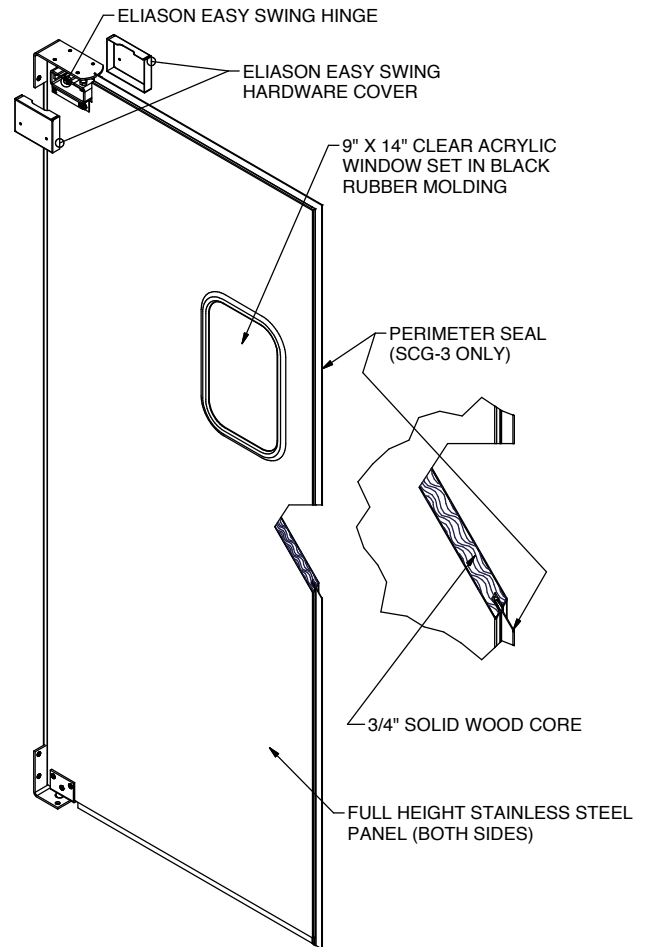

SCP-3 traffic doors are installed in kitchens, restaurants, banquet halls, cafeterias, hospitals and hotels around the world. These very attractive traffic doors offer the classic look and durability associated with stainless steel. They are constructed of a 3/4" solid wood core and clad full height on both sides with stainless steel. Standard scratch-resistant 9" x 14" acrylic vision panels are set in black rubber molding. These doors operate on the Easy Swing Hinge® System pioneered by Eliason more than thirty years ago, and still the smoothest operating and most reliable hinge system on the market today. Custom windows, impact plates, easy spring bumpers and other options are available. To add perimeter edge gasketing, specify Model SCG-3.

Eliason SCP-3 / SCG-3 Doors

product features
& specifications

An Eliason Classic

- Eliason SCP-3 and SCG-3 doors are durable and attractive. Both provide the classic look of stainless steel and are designed to perform in a variety of applications.
- These doors are engineered and built to Eliason's rigid quality standards to provide years of maintenance-free service and are backed by our available industry best Five Year Warranty.
- The SCP-3 and SCG-3 doors operate on the Eliason Easy Swing® Hinge system to provide years of smooth, trouble free operation.
- To add perimeter edge gasketing, specify Model SCG-3.
